There was a pathos in Alison's young voice that brought Kate Gibson's ready sympathy.

For the first time he experienced for the first time he experienced the poignant humiliation of being ignored. And when he tried to re-duce this brilliant, swiftly chang-ing, ice-cold city to a formula he failed utterly. Foet though he failed utterly. Poet though he was, it offered him no color similes, no points of comparison, no flaw in its polished facets, no handle by which he could hold it up and view its shape and structure, as he familiarly and often contemptuously had done with other towns. The houses were interminable ramparts loopholed for defense; the people were bright but bloodless spectres passing in sinister and selfish array.

Gradually Raggles became conscious of certain types. One was an elderly gentleman with a snow-white, short beard, pink, unwrinwhite, short beard, pink, unwrin-kled face and stony, sharp blue eyes, attired in the fashion of a glided youth, who seemed to per-sonify the city's wealth, ripenes-and frigid unconcern.
